

# Cross stitch project calculator

Enter stitch counts, fabric count, over (1 or 2), margin and strands; sizes and skeins calculate automatically.

[illegible]

| Colour | Stitches | Fabric count | Over | Strands | Waste % | Stitches per skein | Skeins |
|--------|----------|--------------|------|---------|---------|--------------------|--------|
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
|        |          |              |      |         |         |                    |        |
